Hi Kathleen, I've made a LOT of progress today but I still have a few things to check in the main doc and a few more studies to add to the suppl table. **Ex. 5 Deliberative Process (DP)**

Hi Catherine, thanks for tackling these revisions. Hopefully things will be clearer in the light of day? I've added some of my thoughts below.

Hi Kathleen, I'm still not done with revisions. I didn't get done Friday so I was hoping to finish today, but all day today I haven't been able to get into HERO (they must be doing maintenance), and the abstracts don't have enough info for me to confirm some overall results. I am trying to finish main draft revisions (mostly adding in some of those bulleted references from the SAB comments) first, then finishing the table in supplemental. **Ex. 5 Deliberative Process (DP)**

Anyway I'm sorry, I'll keep working on it tomorrow, I'm supposed to go to the first day of this ToxForum rodent liver tumor workshop but I'm not presenting or anything so I can skip tomorrow to work on this if it helps, or I was thinking of just going half a day. OK. Whatever you decide is fine. Feel free to give me a call if you need a sounding board.

Hi Catherine, when you are finished with your BaP edits in the Tox Rev and Supp Info (hopefully by Friday COB?) you can send them to me and CC: Ravi. I'll take care of putting them into the Master drafts.

Thanks!
